

AREVENTE

ARCHITECTURE. DESIGN. CRAFTMANSHIP

ABOUT US

We specialize in bringing ambitious visions to life. From exclusive furniture selections to full-scale property development, our team blends international luxury with Austrian precision to create environments that tell a unique story of elegance and quality.

Founded in Vienna, Arevente & Partner GmbH unites architecture, interior design, and bespoke furniture manufacturing into one holistic vision.

We see ourselves not just as retailers or developers, but as storytellers. Our philosophy is rooted in the belief that every space holds the potential to tell a unique story, and through our exclusive selection of high-end furnishings and rigorous development standards, we bring these stories to life.

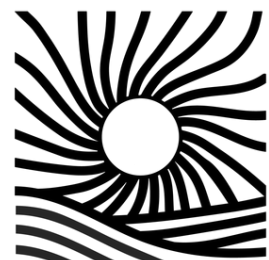

MEET THE FOUNDERS

NINA KLIMOVA

Nina, the founder of the interior design agency Home Interiors and Atelier by Home Interiors, has spent the past decade living in Vienna and creating stunning, innovative projects. Her expertise in designing beautiful spaces has made her a leading figure in the industry.

VAHAGN VARDANYAN

Vahagn has a strong background in development, specializing in building unique and exquisite spaces through his company, Arevente Bau. His eye for detail and commitment to quality have been the cornerstone of his success.

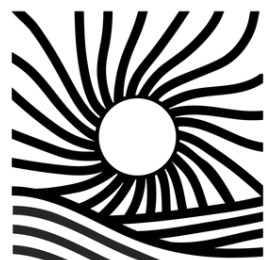

OUR SERVICES

INTERIOR DESIGN & ARCHITECTURE

We transform spaces into emotional experiences. Our team creates cohesive design concepts that blend spatial harmony with your personal narrative, ensuring every room is a reflection of your lifestyle.

CUSTOM FURNITURE DEVELOPMENT

For those who seek the truly unique. We design and manufacture bespoke furniture—from walk-in closets to statement tables—using European craftsmanship and exquisite materials like eucalyptus, bronze, and marble.

TURNKEY PROJECT MANAGEMENT

We handle the complexities so you don't have to. From logistics and construction oversight to final installation, we manage the entire development process to ensure your project is delivered on time and beyond expectations.

ARCHITECTURAL ELEMENTS

We go beyond surface design to sculpt the space itself. From intricate, gravity-defying staircases to custom-engineered facades, we integrate complex architectural features that define the character of your building. These elements serve not just as functional structures, but as the artistic backbone of your project.

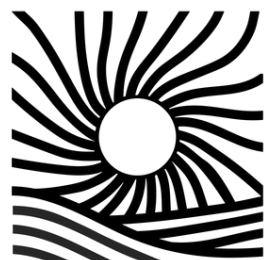

ATELIER

Our team of highly skilled professionals is dedicated to elevating your home textiles, tailoring every detail to your unique preferences. At our boutique atelier, we take pride in delivering premium quality, with meticulous attention to every detail and every stitch.

LUMÈA | RESIDENTIAL

Arevente & Partner unveils Lumèa, an exclusive residential project in Vienna, designed to embody the timeless elegance and refined craftsmanship of Italian artistry.

For this project, furniture by Visionnaire was carefully selected, complemented by a range of bespoke elements created specifically for the space. Among the key custom features are the integrated kitchen cabinetry and a tailor-made shelf-wardrobe for the home office, both designed to blend functionality with architectural sophistication.

LUMÈA | RESIDENTIAL

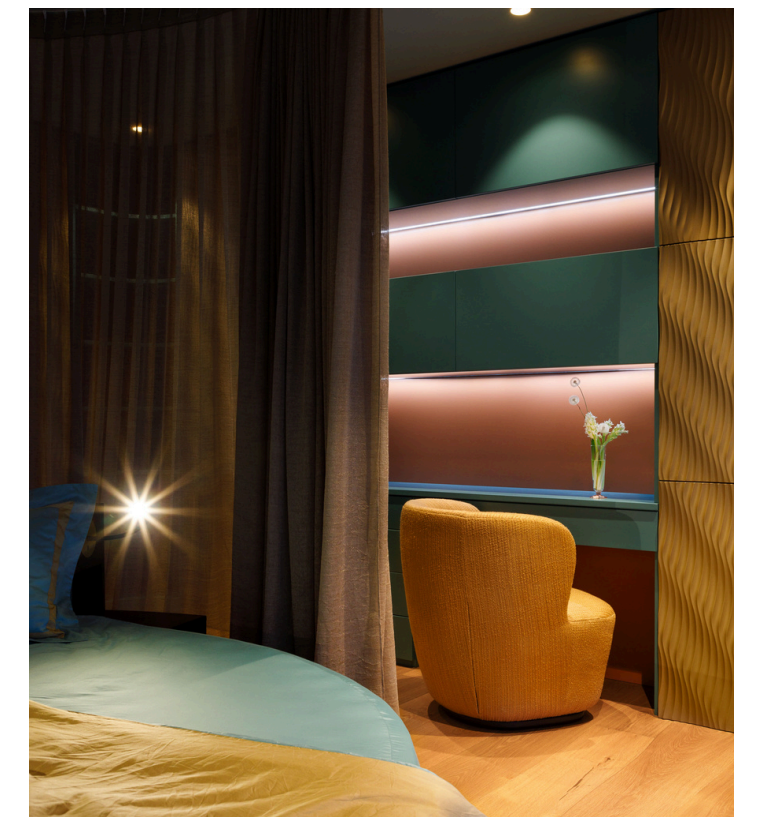

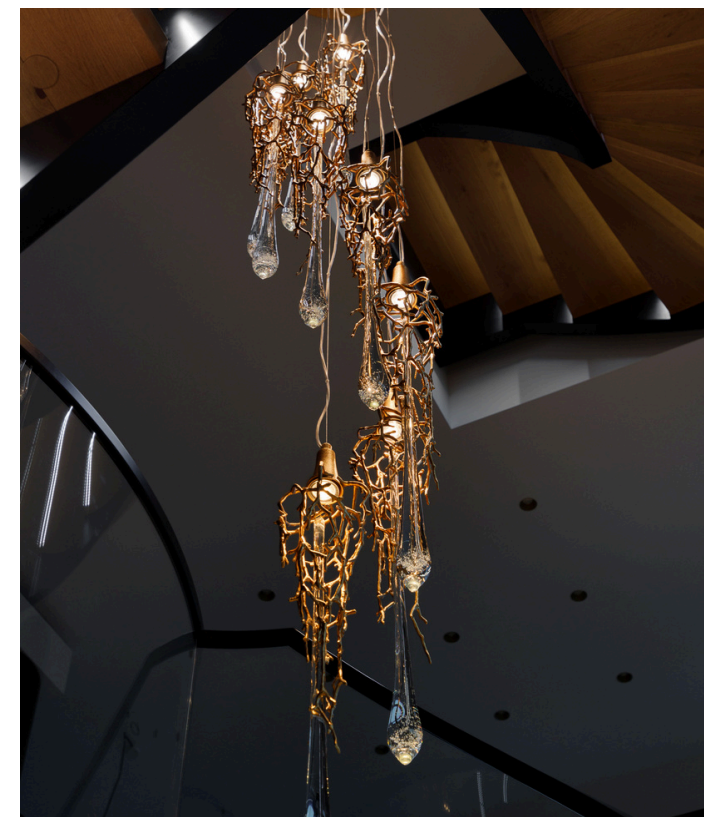

WONDERLAND | RESIDENTIAL

Wonderland apartment was designed for a client's family – an expansive penthouse located in the heart of Vienna. The vision was to reflect each family member's individual taste, fantasies, and interior preferences.

Throughout the project, each room transports you into a different environment – a unique fantasy. Rather than opting for a uniform design concept, the client envisioned a home where each space stands on its own, capturing a distinct mood and character. The result is a bold, unexpected mix of colors, textures, and atmospheres.

For our client, the most important request was to create a bold and colorful project – one where colors and patterns harmonize with each other without becoming overpowering. That's why, in designing each room, we carefully selected every element – from wallpaper to furniture and textiles – to ensure the client's wishes were fully realized.

CYPRUS | SHOWROOM

This project in Cyprus involved the complete interior design of a jewelry showroom specializing in the distribution of precious gemstones to professional jewelers. The scope of work covered the full showroom area, including a feature ring, a custom-designed safe developed specifically for this project, the office spaces, and a guest restroom.

The design concept was developed to reflect the exclusivity and refinement of the precious gemstone industry. Carefully selected materials, refined finishes, and a balanced spatial layout create an atmosphere of understated luxury, aligning with the expectations and standards of professional clients operating within this high-value sector.

The result is a cohesive interior that combines functionality, security, and elegance, supporting both the operational needs of the business and the elevated experience expected by its clientele.
